

# YOUR FAVORITE PHOTOGRAPHS CARVED INTO WOOD

The best carvings are made from high contrast color or black and white. Wood does not give as high detail as photography and results are unpredictable with different species of woods.

The wood that we use is from salvaged or waste lumber from pallets and construction. The finish is 0VOC and lead free.

The best digital formats for this application are jpeg or jpg saved on flash drives, CD or DVD. Digital files can also be sent via e-mail to [dash@industriousdog.com](mailto:dash@industriousdog.com). Questions can be answered via the same e-mail or by phone 503-703-2214.

Only provide copies. Never send original files. Once they are lost they are lost forever!
